

GREENWOOD  
PRIMARY CARE NETWORK

# Patient Participation Groups (PPG)

A great opportunity to get involved in local health issues, that affect you.

Support us with suggestions and ideas to help us provide the best possible health care.

All patients who would be willing to take part in a virtual or face to face group meeting allow us to improve the service we provide as we feel that our patients need the chance to have their voice heard, so that we can provide the best possible health care.

## What does a Patient Participation Group do?

We believe that Patient Participation Groups are essential in order to maintain a good relationship between patients and the practice, by attending this can improve services in ways such as:

- Improve communications between the practice and the patients, to create a clearer understanding from both sides.
- Feedback to the practice new suggestions and ideas, to improve the services we provide.
- Work with the practice to set up a volunteer network, fundraising events and self help groups.

If you would like to join our Patient Participation Group, please leave your details at reception.
